Kevin Rocha

Full Stack Developer | JavaScript | C# | ASP.NET | PostgreSQL   San Jacinto, CA

Email • Portfolio • GitHub • LinkedIn

Key Technology Skills

Javascript | C# | ASP.NET CORE MVC | PostgreSQL | Bootstrap APIs | HTML5 | CSS3 | OOP| Visual Studio | GitHub

Technical Projects

EBookStore: Live Demo

- A online book store that manages book titles, price, genre, and images that would be processed through an online shopping cart.
- Login and register users page that would prompt an e-mail verification confirmation to their designated email of choice.
- Technologies: Javascript, HTML, CSS, C#, ASP.NET Core 7, and PostgreSQL.

Loan Calculator: Live Demo

- Web applications that use JavaScript coding problems and dynamic DOM manipulation.
- Technologies: JavaScript, HTML, CSS, and Bootstrap.

Chat Application: Live Demo

- Chat application that uses SignalR that allows real time communication with the server and client. Allows for communication and instant messaging for all clients that join the same server in real time.
- Technologies: C#, Javascript, HTML, and CSS.

Contact Lister: Live Demo

- Create a contact list of users for your profile. The email set up in each contact list would receive a message through the application to their inbox messages. Stores all user contacts in an organized manner and holds their profile picture, address, email, and other information about the user in the database.
- Technologies: ASP.NET Core 6, C#, PostgreSQL, and Bootstrap

Education

Bachelor of Science : Computer Science, Nov 2024, Southern New Hampshire University, Manchester, NH

Associates of Science: Computer Science, May 2021, Mt. San Jacinto College, San Jacinto, CA
